TL; DR

We have included a simple version of our Terms and Conditions in TL;DRs for each section to make it easier for you to understand them.

The TL;RDs do not form part of the terms, but they can help you quickly grasp the main points of the terms and make informed decisions because we understand that the terms can be difficult to read with a lot of legal language and technical terms. We also wanted to explain how new technologies like blockchain may impact our Services.

These websites (each individually, a “Site” or jointly “Sites”) are operated by Open Interfaces Ltd (“Company”, “we”, “us” and “our”). We offer the Sites, including all information, tools and services available from these Sites (collectively, the “Services”) to you to allow you to interact with the Lens Protocol - a composable and decentralized social graph conditioned upon your acceptance of all terms and conditions (“Terms”), including those additional terms and conditions and policies referenced herein and/or available by hyperlink (collectively, the “Agreement”).

By visiting the Sites and/or using the Services, you agree to be bound by the Agreement. Please read these Terms carefully before accessing or using the Sites. If you do not agree to all the terms of the Agreement, then you should not access the Site or use the Services.

You can review the most current version of the Terms at any time on the Site. We reserve the right to update, change or replace any part of these Terms by posting updates and/or changes to our Site. It is your responsibility to check this page periodically for changes. Your continued use of or access to the Site following the posting of any changes constitutes acceptance of those changes.

ARBITRATION NOTICE: THESE TERMS CONTAIN AN ARBITRATION CLAUSE BELOW. EXCEPT FOR CERTAIN TYPES OF DISPUTES MENTIONED IN THAT ARBITRATION CLAUSE, YOU AND WE AGREE THAT ANY DISPUTES RELATING TO THE SERVICES WILL BE RESOLVED BY MANDATORY BINDING ARBITRATION, AND YOU WAIVE ANY RIGHT TO A TRIAL BY JURY OR TO PARTICIPATE IN A CLASS-ACTION LAWSUIT OR CLASS-WIDE ARBITRATION.

1. SERVICES

To use the Services, you must legally be able to enter into the Agreement. By using the Services, you represent and warrant that you meet the eligibility requirement. If you do not meet the requirement, you must not access or use the Site or the Services.

You may use our Sites only if it's legal for you to agree to our terms (by virtue of age or otherwise).

You may not use our Services for any illegal or unauthorized purpose nor may you, in the use of the Service, violate any laws in your jurisdiction.

You may not use the Services for anything illegal. The Site and our Services evolve constantly and may change from time to time, at our discretion.

The Sites and Services evolve constantly. As such, the Sites and Services may change from time to time, at our discretion. We may stop (permanently or temporarily) providing the Services or any features within the Services to you or to users generally.

Services involve immutable on-chain blockchain interactions with the Lens Protocol.

By using the part of Services which involves on-chain interactions with the Lens Protocol, you understand you are interacting with an inherently public blockchain-based system. On-chain interactions with the Lens Protocol (such as the creation of a Lens Profile, posting or commenting on User Content on-chain, mirroring and collecting publications) are created as immutable entities on the blockchain, therefore the history of interactions with to the Lens Profile can be tracked.

Please note that the Lens Protocol lives on the public and immutable blockchain, which means that all entries will be forever discoverable.

If you are not comfortable with the inherently immutable and public nature of all entries on the blockchain, you should not use our Service that involve on-chain interactions or create or manage a Profile on the Lens Protocol.

You can create a Profile only once, but you can change certain aspects of your Profile on our Site.

In order to access and use certain features of the Service, you must connect to the Service a software-based digital wallet that allows you to mint, collect, store and engage in transactions with the blockchain (each a "Wallet"). ALL BLOCKCHAIN INTERACTIONS INITIATED THROUGH OUR SERVICES ARE effected by third-party wallet extensions. By using our Services you agree that such transactions are covered by the terms of service and privacy policy for the applicable extensions.

If you're not comfortable with the public nature of the blockchain entries, you should not interact with the Lens Protocol.

Lens Protocol user interactions are governed by application-specific terms and conditions.

Lens Protocol operates as a decentralized social graph, which means it does not rely on a single client for its functionality. Instead, it enables a variety of applications to interact with its network. When engaging with the Lens Protocol through your Profile, it is imperative to understand that your activities are subject to the governing terms and conditions of the specific application interface utilized for such interactions.

Lens Protocol functions as a decentralized social graph, not bound to a single client, requiring users to adhere to the terms and conditions of the specific application interface they use for interaction.

Our Site allows you to mint a Profile on the Lens Protocol.

The Site allows you to mint a Lens Protocol profile token (“Profile”). The Profile is created to the Wallet that controls the Profile with the ability to create and contain the history of the content on the Lens Protocol, including all the posts, mirrors, comments and other content originating from that Profile (“Items”). You should not assume that purchasing a Profile gives you any legal rights beyond mere ownership of the underlying blockchain asset.

You can claim a Lens Profile which is created to your self-custodial blockchain Wallet. Payments for minting Profiles can be made via your Wallet or credit card through Stripe. We may choose to set limitations on the claiming or stop it entirely.

We reserve the right - but are not obligated to - limit the provision of Profiles to any person, geographic region or jurisdiction. We may exercise this right on a case-by-case basis in our sole discretion. We reserve the right to limit the type, amount, and quantity of any Profiles which can be claimed via this Site. We reserve the right to discontinue claiming Profiles at any time.

Payments for minting Profiles can be made directly from your Wallet or by using a valid credit card through our integrated Stripe payment gateway. By submitting your payment information, you authorize Stripe to process your payment. As your payment processing is handled by Stripe, we encourage you to review Stripe’s terms of service and privacy policy directly to understand the protections and the terms under which your payment information is processed.

Please note that all payments made on Site are final and non-refundable. Once a transaction has been completed and the Profile minting process has begun, we cannot offer refunds or credits for any reason

You are ultimately in control of your Profile.

You understand that when you interact with any Lens Protocol smart contracts, you retain control over your Profile at all times. It is important to understand that neither we nor any affiliated entity is a party to any transaction on the blockchain networks underlying the Lens Protocol; we do not have possession, custody or control over any Items on your Wallet (including, but not limited to Profiles); and we do not have possession, custody, ability to delete or control any Items on any user's Wallet or any Profile's interactions with the Lens Protocol.

You, and only you, are in control of your Profile. Use this power carefully.

You are responsible for securing the Wallet that contains your Profile.

You are responsible for safeguarding your Profile and Wallet. We cannot and will not be liable for any loss or damage arising from your failure to secure your Wallet.

Keep your wallet safe. You are responsible for it.

The private key associated with the Wallet address from which you use to claim Profile or the private key associated is the only private key that can control the Wallet you use to interact with the smart contracts. You alone are responsible for securing your private keys. We do not have access to your private keys.

2. BLOCKCHAINS

Entries on the blockchain are not anonymous.

A widespread belief is that entries and transactions involving blockchains are anonymous. In fact, a central feature of blockchains and thus, blockchain-based transactions and entries, is that they are generally transparent. Your public key and your Wallet address, which you need to interact with the blockchain, as well your Profile and Items in your Wallet are visible to anyone. To the extent your public key or wallet address can be linked back to you, it would be possible for someone to determine your identity and the Items in your wallet.

You are interacting with an inherently transparent blockchain. Transparency does not mean anonymity, but your public key and wallet address will be visible to everyone. If you're not comfortable with this, you should not engage with blockchain-based services.

You assume the risks of engaging in transactions that rely on smart contracts and other experimental technology.

Transactions on the Lens Protocol rely on smart contracts stored on a blockchain, cryptographic tokens generated by the smart contracts, and other nascent software, applications and systems that interact with blockchain-based networks. These technologies are experimental, speculative, inherently risky, and subject to change.

Using the Lens Protocol involves new and risky technology like blockchain and smart contracts.

Among other risks, bugs, malfunctions, cyberattacks, or changes to the applicable blockchain (e.g., forks) could disrupt these technologies and even result in a total loss of tokens, cryptoassets, their market value, or digital funds. You are solely responsible for the safekeeping of the private key associated with the blockchain address used to interact with the Lens Protocol. We assume no liability or responsibility for any such risks. If you are not comfortable assuming these risks, you should not access or engage in transactions using blockchain-based technology.

This technology can be vulnerable to bugs, cyberattacks, and other problems that may cause you to lose your tokens or digital funds.

One of the other defining features of blockchain technology is that its entries are immutable, which means, as a technical matter, they generally cannot be deleted or modified by anyone. This includes smart contracts and tokens generated and programmed by smart contracts.

We will not be held responsible for any problems you may encounter. If you don't want to take the risk, you should not use the Lens Protocol.

THUS, TRANSACTIONS RECORDED ON THE BLOCKCHAIN, INCLUDING TRANSFERS OF TOKENS AND DATA PROGRAMMED INTO THESE TOKENS, MUST BE TREATED AS PERMANENT AND CANNOT BE UNDONE BY US OR BY ANYONE. YOU MUST BE VERY CAREFUL WHEN YOU FINALIZE ANY ENTRY OR TRANSACTION THAT WILL BE RECORDED ON THE BLOCKCHAIN.

You acknowledge the risks of using the Services.

You bear sole responsibility for evaluating the Services before using them, and all transactions and blockchain entries accessed through the Services are irreversible, final, and without refunds. The Services may be disabled, disrupted or adversely impacted as a result of sophisticated cyber-attacks, surges in activity, computer viruses, and/or other operational or technical challenges, among other things. We disclaim any ongoing obligation to notify you of all of the potential risks of using and accessing our Services. You agree to (defined below) accept these risks and agree that you will not seek to hold any Avara UI Labs Indemnified Party responsible for any consequent losses.

You bear sole responsibility for evaluating the Services before using them.

The Lens Protocol is deployed on blockchain-based networks, and we are not responsible for the operation of such networks.

The software underlying blockchain networks on which the Lens Protocol is deployed, including the Polygon Network, is open source, which means that anyone can use, utilize, and build on top of it. By using the Services, you acknowledge and agree that (i) we are not responsible for the operation of the blockchain-based software and networks underlying the Lens Protocol, (ii) there exists no guarantee of the functionality, security, or availability of that software and networks, and (iii) the underlying blockchain-based networks are subject to sudden changes in operating rules, such as those commonly referred to as “forks”.

The Lens Protocol is deployed on networks which we don't control.

The Services are provided to free of charge, however, there may be associated blockchain fees.

We may provide Services free of charge however, all transactions using blockchains require the payment of gas fees, which are essentially transaction fees (also called “gas fees”) paid on every transaction that occurs on the selected blockchain network. We may, at our sole discretion, cover the gas fees for users. We may stop (permanently or temporarily) covering the gas fees at any time. We do not receive any fees for any transactions, the Services, or the Site.

Blockchains come with gas fees. We may pay for those fees on your behalf; however, we may choose to not pay for them at any time.

PLEASE READ THIS SECTION CAREFULLY: IT MAY SIGNIFICANTLY AFFECT YOUR LEGAL RIGHTS, INCLUDING YOUR RIGHT TO FILE A LAWSUIT IN COURT AND TO HAVE A JURY HEAR YOUR CLAIMS. IT CONTAINS PROCEDURES FOR MANDATORY BINDING ARBITRATION AND A CLASS ACTION WAIVER.

Agreement to Attempt to Resolve Disputes Through Good Faith Negotiations

Prior to commencing any legal proceeding against us of any kind, including an arbitration as set forth below, you and we agree that we will attempt to resolve any dispute, claim, or controversy between us arising out of or relating to the agreement or the Services (each, a "Dispute" and, collectively, "Disputes") by engaging in good faith negotiations. Such good faith negotiations require, at a minimum, that the aggrieved party provide a written notice to the other party specifying the nature and details of the Dispute. The party receiving such notice shall have thirty (30) days to respond to the notice. Within sixty (60) days after the aggrieved party sent the initial notice, the parties shall meet and confer in good faith by videoconference, or by telephone, to try to resolve the Dispute. If the parties are unable to resolve the Dispute within ninety (90) days after the aggrieved party sent the initial notice, the parties may agree to mediate their Dispute, or either party may submit the Dispute to arbitration as set forth below.

Before trying to sue us, you agree to first engage in good faith negotiations with us to resolve any dispute.

We agree that if we can't sort it out through negotiations, it will be resolved through binding arbitration.

Unless you provide a timely arbitration opt-out notice to us to the email address provided in Contact Information below, you acknowledge and agree that you and we are each waiving the right to a trial by jury or to participate as a plaintiff or class member in any purported class action or representative proceeding.

Agreement to Arbitrate

You and we agree that any Dispute that cannot be resolved through the procedures set forth above will be resolved through binding arbitration in accordance with the International Arbitration Rules of the International Centre for Dispute Resolution. The place of arbitration shall be the Cayman Islands. The language of the arbitration shall be English. The arbitrator(s) shall have experience adjudicating matters involving Internet technology, software applications, financial transactions and, ideally, blockchain technology. The prevailing party will be entitled to an award of their reasonable attorney's fees and costs. Except as may be required by law, neither a party nor its representatives may disclose the existence, content, or results of any arbitration hereunder without the prior written consent of (all/both) parties.

UNLESS YOU PROVIDE US WITH A TIMELY ARBITRATION OPT-OUT NOTICE TO US AT THE EMAIL INDICATED IN THE CONTACT INFORMATION BELOW, YOU ACKNOWLEDGE AND AGREE THAT YOU AND WE ARE EACH WAIVING THE RIGHT TO

A TRIAL BY JURY OR TO PARTICIPATE AS A PLAINTIFF OR CLASS MEMBER IN ANY PURPORTED CLASS ACTION OR REPRESENTATIVE PROCEEDING. FURTHER, UNLESS BOTH YOU AND WE OTHERWISE AGREE IN WRITING, THE ARBITRATOR MAY NOT CONSOLIDATE MORE THAN ONE PERSON'S CLAIMS AND MAY NOT OTHERWISE PRESIDE OVER ANY FORM OF ANY CLASS OR REPRESENTATIVE PROCEEDING.

Changes

By rejecting any changes to these Terms, you agree that you will arbitrate any Dispute between you and us in accordance with the provisions of this section as of the date you first accepted these Terms (or accepted any subsequent changes to these Terms).
